

FEEDING QUIZ

Fact Sheet

Food is required for:

1. Survival of the horse
2. Satisfying the appetite
3. Condition of the horse
4. Warmth
5. Energy
6. Growth and muscle development
7. Repairing damaged tissue

Feeding Rules:

1. Make fresh water available at all times
2. Feed little and often
3. Feed plenty of roughage. Without roughage the digestion process is impossible.
4. Keep to the same feeding hours each day.
5. Do not make sudden changes in the type of food or routine of feeding. All changes should be done on a gradual basis.
6. Feed according to work, temperament and condition.
7. Feed good quality and clean forage only.
8. Do not work a horse straight after a feed or when the stomach is full of grass. Allow a good 1 $\frac{1}{2}$ hours after feeding before exercise.
