

Body Protector Rule 2018

The Pony Club does not make the use of body protectors compulsory, except for all Cross Country riding and Pony Racing whether it be training or competing. Body Protectors used for Cross Country and Pony Racing must meet BETA 2009 Level 3 standard.

Please note: A new body protector standard will be released by BETA at some point during 2018. Further details will be communicated when the standard is launched and a revised body protector rule will be available on the Pony Club website.

For general use, the responsibility for choosing body protectors and the decision as to their use must rest with Members and their parents. It is recommended that a rider's body protector should not be more than 2% of their body weight. When worn, body protectors must fit correctly, be comfortable and must not restrict movement.

Riders who choose to use the Woof Wear Body Cage EXO must lodge a key with the Event Organiser when they collect their number.

Air Jackets

When an air jacket inflates the sudden noise startles horses in the immediate vicinity thereby causing difficulties for the other members of a ride if used in a group ride in a confined area, e.g. an indoor school or outdoor ménage. Air jackets are therefore not encouraged for group rides.

If a rider chooses to wear an air jacket in Cross Country or Pony Racing, it must only be used in addition to a normal body protector which meets the BETA 2009 Level 3 standard (purple label). Parents and Members must be aware that riders may be permitted to continue after a fall in both competition and training rides for Cross Country and/or Pony Racing, provided the rider has been passed as fit to continue by First Aid Providers. In the event of a fall, the air jacket must be fully deflated or removed before continuing, after which, the conventional body protector will continue to give protection. Air jackets must not be worn under a jacket and number bibs should be fitted loosely or with elasticated fastenings over the air jacket.
