

The Pony Club - Office Structure

The staff of the Pony Club are primarily in place to enact the decisions of The Pony Club committees. These committees are charged with developing the various aspects of The Pony Club and ensuring that all parts of the organisation stay current and relevant to its Members. Key management staff will advise on the decisions being made by the committees and will make day to day operational decisions. However, any significant matters, such as rule changes (for The Pony Club and any of its sports), and matters which involve spending significant financial amounts are taken by the relevant committees.
